Foreword

Hear Ye! Hear Ye!

St. Mary's College, a monument to history and to education, was founded on a peak of fertile land jutting into the St. Mary's River. With the passage of time, the school has taken from its surroundings the atmosphere of the past that prevails in this, the first capital of Maryland. For St. Mary's, and, indeed, all of the southernmost tip of Maryland retains the flavor of Maryland's past through the stately and elegant manor houses that are still maintained today.

Ghosts tales and mystics seem to traditionally surround and entwine these old manor houses. Every place of shelter, be it even a log cabin, houses tales of woe and gladness; but, within the walls of a manor house the tales always appear to have a much deeper intensity with an enormous content of complexity.

In 1634, the first English settlers on the shores of the St. Mary's River founded the colony of Mary's Land. Within the next decade a tiny settlement, St. Mary's City, was carved from the wilderness. Under the auspices of the Yawacomoco Indians, the prospering city became the capital of the Province of Maryland. Here the first State House was erected in 1676. But in 1691, when the capital of the State of Maryland was moved to Annapolis, the population and industry of St. Mary's City dwindled. Little remained of the former quick pulse of life in the old capital. Even the stately mansions of colonial southern Maryland acquired an air of agelessness. Such was the atmosphere that prevailed on the historic banks of the St. Mary's River when the building of St. Mary's Female Seminary (now St. Mary's College) was sanctioned by the Maryland legislature in 1839. Now, from the doors of the State House of the province of Maryland, let us journey to the living landmarks of Maryland's past, the beautiful manor houses of St. Mary's County.

Dr. May Russell, President of St. Mary's College, received her A.B. degree from Western Maryland College. Having completed further studies, she was granted an M.A. degree in mathematics from Teachers College of Columbia University. Graduate studies took Dr. Russell to Johns Hopkins University, the University of Michigan, and Harvard University. Western Maryland College, her Alma Mater, conferred upon Miss Russell the LL.D. degree. Dr. Russell is highly respected by both the faculty and the students of St. Mary's College, her chosen home.

Our president can play a clever hand of cards. Ask any faculty member!

It is hard to outdistance Dr. Russell in the art of conversation. Here we see her with Governor Fawcett on Governor's Day at SMC.

Kemp Yarborough Receives Doctorate

Dr. Kemp P. Yarborough, Dean of Faculty, has been head of the Social Science Department since 1959. He was one of the first male faculty members to teach at St. Mary's.

Having first been educated in the profession of law, Dr. Yarborough served in the U.S. Army in 1942-48 and 1951-53, retiring as a Major in the Army Reserve. He then decided to enter the field of education. He received his M.A. degree from the University of South Carolina, and his Ph.D. from Columbia University in 1963. Dr. Yarborough is well liked and highly respected by the students.

Hear Ye! Hear Ye!

Tudor Hall, a Georgian-type mansion, was built by Abraham Barnes in 1756, and is the ancestral home of the Keys of St. Mary's. From its location in Leonardtown, one can see the beautiful Breton Bay and surrounding countryside of St. Mary's County. Tudor Hall has been restored to much of its earlier beauty; and it now belongs to the St. Mary's Memorial Library Association for use as a public library.

This lovely Eighteenth Century manor house is distinguished by a recessed portico with four large Doric columns, graceful hanging stairway, an old kitchen wing with a large fireplace, and a Dutch oven.

Tudor Hall is rich in memories of the Key family, who were noted people in Maryland long before Francis Scott Key wrote the "Star Spangled Banner."

A woesome trend has instilled itself within a grandfather clock which found its resting place within the enormous center passageway of Tudor Hall. Tradition says that it only strikes the hour when a death takes place in the family. When the death of Mrs. Key was near, the family sent a servant to Leonardtown, to seek a doctor and Mrs. Key's childhood nurse. While returning with great haste, they stopped as a sound rang out. They knew that it was the clock striking off the last beat of Mrs. Key's heart.

Hear Ye! Hear Ye!

West St. Mary's Manor, a late seventeenth century manor house, stands high above the St. Mary's River and directly opposite the old city. This earliest known grant of land in Maryland was presented to Captain Henry Fleet for his help in establishing the first settlement at St. Mary's. West St. Mary's Manor is a story-and-a-half structure with small dormer windows, frame sides, and brick gable ends. The double chimneys with pents between at each end are unique in this area. This lovely manor house is owned by Lt. Col. and Mrs. Miodrag Blagojevich who have furnished it throughout with authentic seventeenth and eighteenth century American antiques.

Tradition has it that many years ago when the mistress of the manor died, her picture disappeared from the wall of her west wing bedroom. Her son, the master of the manor, mourned deeply over the loss of his dear mother and her beautiful portrait. On her birthday the following year, as he sat in her old bedroom staring at the wall where his mother's portrait had hung, it suddenly appeared to him. And the tale goes that each year on that same day her picture will appear to anyone who stares at that wall and thinks of her.

Hear Ye! Hear Ye!

Sotterley picturesquely located on the Patuxent River, was built in 1730 by George Plater and was named for the ancestral home of the Plater and Saterlee families in England. The mansion, which has housed four generations of Platers, including a Governor of Maryland, is currently owned by Mrs. Mable Saterlee Ingalls and is one of the most architecturally interesting in St. Mary's County. Among the fine pieces of interior woodwork can be found a Chinese Chippendale staircase and carved shell cupboards.

Legend has it that George Plater was one of the wealthiest planters in Maryland and the story of this great wealth reached many ears. Among those who heard of it was the pirate chieftan, Long Arm, who decided to visit Sotterly and loot it of these treasures. Quietly Long Arm sailed up the Patuxent River and dropped anchor near shore. Thinking that only the women would be at the manor on this morning, Long Arm was confident that he and his men could easily frighten them and make away with the riches. His scheme was thwarted, however, when a Negro slave sighted the brigands creeping up the hill and gave the alarm to Plater and several other men who had just returned from a fox hunt. Long Arm and his crew, two of whom were killed in the chase, beat a hasty retreat to their ship and sailed off down the Patuxent. It is said that the two dead pirates were buried on the spot where they fell and today their graves remain unmarked.

The Library is a Busy Place

For the students of St. Mary's College, the library is the center of academic studies. Books, records, film strips and other resource materials can be borrowed to supplement class work. It is a place to relax with a good book as well as a place for study and research.

The Maryland Room contains many valuable books and mementoes connected with early St. Mary's City. Here students have an opportunity to learn more of the heritage which is associated with our campus.

Mathematics Department Teaches Accuracy

The Mathematics Department of St. Mary's College offers a variety of courses to aid the student in obtaining a well-rounded education. Courses in calculus, trigonometry, algebra and business mathematics are offered to students to allow them a choice of studies.

Mr. Kratz gives Tom Brown personal aid in doing a difficult equation.

The Joy of Music

St. Mary's College is very proud of the accomplishments of its Music Department. The choir, under the direction of Brantley D. Greeson, has sung for many churches and civic organizations as well as for college functions. During its annual spring tour, the choir will sing in the Maryland Pavillion at the New York World's Fair. For the

first time in the history of St. Mary's, boys have been added to the choir.

Students are offered courses in practical and theoretical music in the fields of voice and piano. This department has a program for all students, novice and experienced.

Karen Bishop is accompanied by Mr. Greeson as she takes her vocal lesson.

Sandra Rutland gains experience through her hours of practice at the piano.

The Physical Education Department of SMC provides the student with physical activity to keep the body healthy. Classroom work and recreational activity lend variety to this required program. Students are able to select the course in which they would like to participate. This enables a student to widen his field of interest and to have fun as well.

S. Brebner, B. Salisbury, J. Esposito, F. Hampton, and K. Meade launch the boat.

R. Joyner, J. Esposito, E. Piercy and P. Shawley practice their new badminton skills.

Shirley Bowers works as Dr. Rowland's assistant in the biology lab.

Dr. Rowland aids Florence Haischer in studying the structure of the cat.

Marine Biology to be Introduced

Dr. Russell accepts the valuable shell collection from Howard Joynt, whose grandmother had collected the more than three thousand shells from all over the world.

The advent of Dr. Eloise Rowland on the faculty of SMC is bringing the long-planned marine biology department closer at hand. Students now have an opportunity to take courses leading to such fields as botany, chemistry, zoology, nursing and various fields of technology. Lectures and laboratory sessions provide an atmosphere conducive to learning.

Jackie Dalton helps Dr. Rowland classify and catalogue the department's new shell collection.

The Arts and Sciences

Chemistry is not only a requirement but a pleasure for a number of our students with Mr. Fahl as

instructor. This course is offered to those in the Home Economics and Science curricula.

Social Science, including History, Government, Sociology and Psychology, are popular courses at St. Mary's. These courses are open to any student wishing to broaden his or her cultural background, and wanting to advance in the knowledge of today's world.

Cremona was built about 1819 by Doctor William Thomas on a beautiful piece of land along the Patuxent River. The estate, originally known as West Ashcomb, was given to John Ashcomb by Lord Baltimore in 1659 and the Land Grant still hangs in the hall of Cremona.

Cremona is considered to be one of the finest existing examples of early Republic architecture in Maryland. Particularly striking is an unusual hanging staircase in the great hall which is mounted from either end of the hall. Cremona is presently owned by the Davidson family who have restored the manor house and furnished it with antiques from England and America.

Samadra Players Present

Anyone who is interested in dramatics and current theatrical news is eligible for membership in the Samadra Players.

This year the group presented two plays, "Bus

Stop" and "Rebel Without a Cause." "Mr. T's" experience and willingness to help, were a great factor in this successful theatrical year.

The M.A.A. Organizes

The Men's Athletic Association was first organized this year. It sponsors men's varsity and intramural sports, and provides transportation for the Basketball Team to the "away" games. The money is obtained by a picnic which is held each spring.

Treasurer, A. Brown; Advisor, M. Dewey; Vice President, P. Baltzell; President, B. Salisbury

The W.A.A. Keeps The Girls Busy

The Women's Athletic Association is an organization designed to promote athletic competition and to increase class spirit and loyalty toward the college.

Any member of the Association is eligible for the Board, which is the governing body of the organization. The Board consists of the officers and a manager for each of the sports participated in during the school term. The full athletic program is handled entirely by the Association which sponsors social as well as athletic activities.

The Castellan Staff Enjoys Its Work

Carol Canoles, Editor-in-chief, has spent a great deal of time in organizing the yearbook. Under her supervision the yearbook has been systematically and efficiently prepared.

THE LAYOUT STAFF: J. Gargani, S. Smith, C. Brown, K. Snyder

TYPISTS: D. Hillis, J. Rathmell, B. Joyner, J. Dalton (Literary Editor)

The yearbook has its staff chosen from the student body. It concerns itself with the financial as well as the literary side of yearbook editing and is a valuable experience to anyone interested in this type of work.

The literary and layout staffs have worked side-

by-side, in preparing the annual. The members of the staff attended the annual Yearbook Convention, which was held at American University, where they learned many new ideas, as well as the essentials of planning a yearbook.

The Members of the I.R.C. Are Interested in World Affairs

The International Relations Club was organized to promote an interest in world affairs. The club tries to achieve this goal by several means—speakers, filmstrips, newsreels, discussions and debates. The club is climaxed each year by the Annual *Time* Magazine test, which is a nationwide contest.

It is given to all interested students, and certificates of excellence and merit are given to the top scorers on the test. The club meets twice a month with Dr. Yarborough as the sponsor who does much to promote an interest in world affairs.

The Home Ec. Club's Services Are Extensive

J. Swartz, Miss Osland, J. Matarozzo, K. Bishop, President; L. Pilkerton, C. Weiland, Secretary; J. Phipps, Vice President; L. Perkins, R. Cecil.

The Home Economics Club works to make its members aware of the opportunities in the field of Home Economics and to prepare them for a future in this field.

Their Thanksgiving baskets and favors for retarded children in Lexington Park are only examples of the services that make them highly respected by all.

The S.N.E.A. Prepares Our Students For the Teaching Profession

The Student National Education Association invites to membership any student who is interested in the teaching profession. The principal purpose of the club is that of providing opportunities for learning about the profession and its role in our

society. Competent teachers and other educators are invited to speak at club meetings and actual teaching situations are visited by the club as a group.

The Campus Development Planning Committee

The Campus Development Planning Committee brings the students view points to the administration in the design of the future campus. The members meet regularly with Miss Simms and Mr. Anderson and are very influential in the planning of the enlarged campus.

The Point News Staff Is Always Busy

The *Point News* is published eight times a year. The members of the staff are constantly amassing facts and opinions, in an attempt to make the paper objective and informative. The paper has been enlarged for our larger student body, and Mrs. Salisbury is the new advisor.

The newspaper sponsors the election of St. Mary's entrance in Glamour's Best Dressed College Girls Contest. Two members of the staff attended the Maryland-Deleware Press Convention in February.

The Folksinging Group Combines Fun With Learning

The members of the folksinging group are beginners as well as knowledgeable musicians. Anyone who is interested in singing, learning, or listening is a welcome member of the recently formed organization.

Activities

Hear Ye! Hear Ye!

Mulberry Fields, once an extensive tobacco plantation, is situated on a high bluff overlooking the Potomac River and Blake's Creek. Built in 1760, by John Sommerville, a Scottish merchant, the Georgian mansion, with its formal gardens and bowling green, is one of the most beautiful in St. Mary's County. One of the more interesting features of the estate is the manner in which the bordering hedgerows and columns of trees are planted. They appear to be in parallel rows extending to the water, but were actually placed in converging lines so as to create the illusion that the river, in reality a mile away, is much closer to the house. Mulberry Fields is presently owned by Mr. and Mrs. Holger B. Jansson.

May Festivities

The first of May was a very special event on the St. Mary's campus this year. In keeping with the fact that this was Law Day as well as May Day, the celebration, which took place in front of Maryland's first State House, was opened with the introduction of visiting lawyers and dignitaries. A speech by Maryland Attorney-General Thomas Finan on religious toleration was followed with the acceptance by State Comptroller Louis Goldstein of a plaque commemorating the settlement of Maryland. The climax of the afternoon came with the crowning of Miss Donna Spalding as Queen of the May. The college Drama Department brought the program to a close with an excellent pageant depicting the settlement of St. Mary's City. Accompanying this was the college choir singing "Maryland, My Maryland." The festivities continued throughout the day, including a tea held in the Garden of Remembrance, the dormitory open house, and the St. Mary's College Student Art Exhibit. The highlight of the evening was the May Prom, over which the Queen and her court presided.

Despite a rather unsuccessful season, the Retrievers were enthusiastically supported by the students. The team, though lacking in height, showed steady improvement throughout the year. Many of the players will be returning next year and we are all hoping for a more successful season.

"Go Retrievers"

The cheerleaders' attributes included pep and skill, and they will always be remembered for their enthusiasm and successful attempts to instill it in the spectators. Their stamping feet and clapping hands constantly reminded the team that the whole school was behind them.

The most popular sport.

The most popular of the girls' winter sports is basketball. Anyone is eligible to play in intramurals, and from these teams Mrs. Clevenger chooses the varsity.

The varsity team participated in a Sports Day at Towson State this year, where they played Notre Dame, Goucher and Towson, as well as regular games with near-by colleges.

Donna Mills prepares for a rebound of Mitzi Atwell's shot, in the opening game with Salisbury State.

Volleyball means, "Practice, Practice, Practice"

The members of the volleyball team played games with Salisbury State and Baltimore Junior College. They also participated in the Sports Day at Towson, playing Notre Dame, Goucher, and Towson.

The highlight of the season is the Faculty-Student game.

Janet Frame returns a serve in the first game of the season with Salisbury State.

Joyce Gargani and Susie Stewart start practice with a center volley.

Girls' Hockey

Hockey is a sport that is eagerly participated in at St. Mary's. The varsity team played Salisbury State and participated in games at a Sports Day at the University of Maryland with Frostburg State, Bowie State, Gallaudet and American University.

Janet Frame was chosen as St. Mary's outstanding player.

Judy Carrick and Ellen Hand look on as Joyce Gargani shoots for the goal guarded by goalie Bonnie Dixon.

Physical Fitness and good, clean fun

The faculty members, as well as the students enjoy tennis almost every day, if weather permits. The warm afternoons of Southern Maryland combined with the excellent tennis courts of St. Mary's enable a number of people to enjoy one of America's

top individual sports regularly.

Early in the Spring, men and women students begin practice for the varsity tennis teams which play other colleges during late second semester.

Mr. Baker and Mr. Dewey's afternoons of tennis are a regular feature of St. Mary's College.

P. Shawley, K. Snyder, L. Horsman, and J. Humphreys dance "Green Sleeves."

N. Ranneberger, L. Burner, L. Horsman, L. Long, J. Humphreys enjoy learning the "Patty Cake Polka."

Dance

One of the most popular of the Physical Education courses is Folk and Square Dancing. The students learn dances of many countries, as well as

square dances. Modern dance is new this year and is becoming very popular. Both courses teach rhythm and coordination, and are fun, as well.

Front: M. Chandler, Mrs. Clevenger, M. Atwell; Standing: P. Graham, B. Dixon, N. Albertson, P. Salisbury, S. Newman.

Julie Meade returns the birdie in badminton class.

Joe Russell and Larry Butcher practice for Cross Country racing.

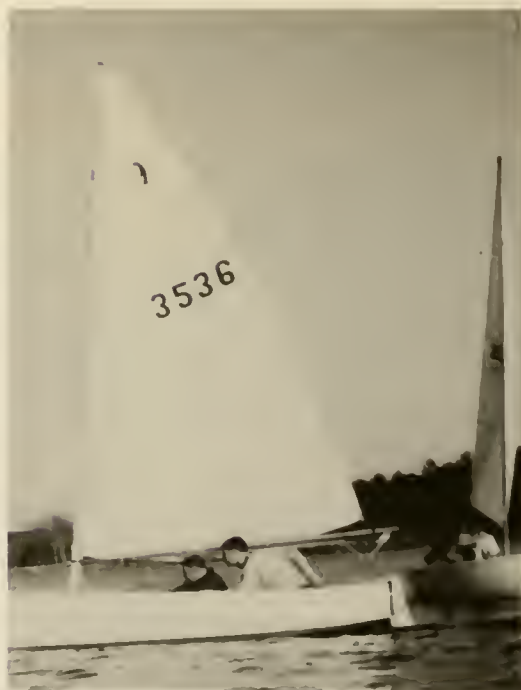

Individual and team efforts

Because of the mild Southern Maryland weather, and the opportunities afforded by schedules, individual and team athletics are the most popular student activities.

Through physical education classes and practice the students have become quite adequate at a number of sports. One of the most popular is boating. Almost any warm afternoon will find a group of students sailing or canoeing on the St. Mary's River.

This year a varsity Cross Country team was organized. The men students on the team participated in meets with various Junior Colleges. It has been one of the regular sports at St. Mary's.

The students also participated in intramural badminton and table tennis.

Jimmy Esposito and Bill Salisbury are among the many students who take advantage of the excellent boating facilities at St. Mary's.

*On the banks of blue St. Mary's—near Potomac
strand,
Stands our dear old Alma Mater—best school in
the land!
Built of bricks from the first state house—near
the mulb'ry's shade
Where Lord Calvert with the Indians once a
treaty made
Boldly stands she by the waters, faithful to
unfold
Knowledge to her sons and daughters—worth
more than pure gold.
Age and fire cannot destroy her—she has stood
the test.
We will always love St. Mary's—she deserves our
best.
We will ever love St. Mary's—love to praise her
name;
Strive to make our lives add luster to her
glorious fame.
Let your glad song wake the echoes, sing with
voices free
Hail to Thee, Dear Alma Mater! Hail, all hail,
to Thee!*

Hear Ye! Hear Ye!

Porto Bello, overlooking the St. Mary's and Potomac Rivers opposite St. Mary's City, is a beautiful, gambrel roofed, "pent-type" manor house. The mansion, dating from the eighteenth century, is believed to have been built by William Hebb who is buried in an elaborate sarcophagus on the grounds. Hebb, who was a midshipman in the British Navy under Edward Vernon (for whom Lawrence Washington named his Mt. Vernon) during the British-Spanish War, named the house after the battle of Porto Bello in The West Indies. Porto Bello is now the home of Mr. and Mrs. J. Allen Coad.

Each year we attempt to produce a better yearbook by sending representatives to one of the annual forums presented by a publishing company. This year, we attended the American Yearbook Forum in Washington, D.C. where we compared our yearbook and its needs with those displayed. Through lectures and filmstrips we learned how to improve our book. In exchanging ideas with other groups we gained the incentive to strive for a better yearbook.
